

## Technical Data Sheet

# 1646 Middle Chrome Yellow

(Pigment Yellow 34)

Molecular Formula :  $PbCrO_4$

CAS No: 7758-97-6

### **Specifications:**

Colour (compare with standard)	approx
Hiding strength	95% min
Content of $PbCrO_4$	85% min
Oil absorption	22g/100g max
Moisture	1.0% max
Water soluble	1.0% max
Ph value	5 - 8
Res.on 320 mesh	0.5% max

### **Applications:**

With high hiding, strong tinting strength, good weathering resistance and heat resistance, Lead Chrome Yellow is widely used in coating, paint, printing ink, plastic and rubber industries.

### **Packing:**

In 25kgs paper bags.
