

Technical Data Sheet

PRODUCT NAME: ULTRAMARINE BLUE RR-80

Colour index No.: Pigment Blue 29, 77007

Molecular Weight: 862.558

Specification	Test Result
Oil Absorption	39Gr/100Gr
Tinting Strength (compare with standard) %	100
Matter volatile at 105°C % ≤	1.4%
Water soluble matter % ≤	0.6
Free sulphur % ≤	0.01
Residue on 325 mesh % ≤	0.03
Moisture (when packaged)	0.40%
Heat stability 350 ° C	5 minutes
Acid Fastness	1
Alkali Fastness	2-3
Light Fastness	8

Applications:

Ultramarine Blue widely used in rubber industries, paper industries, plastics,
In paint industry, Ultramarine Blue removes the yellow color from white paint. Also for tinting.

Packing:

In 25kgs paper bags. 24 bags on pallet.
